LAKSHANADEVI M

Artificial Intelligence & Data Science Student

lakshanadevi70@gmail.com | +91 93455 09886 | Chennai, India

linkedin.com/in/m-lakshana-devi | github.com/lakshanadevi70

SUMMARY

Artificial Intelligence and Data Science student skilled in Machine Learning, programming, and UI/UX design, with hands-on experience in building intelligent and user-centric applications. Passionate about creating practical solutions that improve user experience and solve real-world challenges.

EDUCATION

St. Joseph's Institute of Technology — Chennai, India 2024 – 2028
B.Tech | Artificial Intelligence and Data Science | CGPA: 8.89

Suddhananda Vidyalaya Matric. Hr. Sec. School — Chengalpattu 2010 – 2024
Higher Secondary | Percentage: 84%

EXPERIENCE

Agentic AI Intern (Skills) | Altrosyn Jun 2026 – Jul 2026
Worked on an agentic AI skills-development project, analyzing APIs and code, and building feature and test-scenario documentation to evaluate AI agent capabilities.

Cloud Automation & Data Engineering Intern | Ford 17 Jun 2026 – 20 Jul 2026
Built Python automation tools on Google Cloud Platform (BigQuery, Cloud Storage, Cloud Run) to fetch dealer and product pricing data, including a web scraping pipeline with Apify, and supported CI/CD, Airflow scheduling, and Jira-tracked delivery.

UI/UX Developer | NoviTech Nov 2025 – Dec 2026
Designed and prototyped WhatsApp, Instagram, and food-ordering style app interfaces in Figma, conducting user research and iterating designs based on feedback.

AI/ML Intern | Edunet Foundation (IBM) Dec 2025 – Jan 2026
Built and evaluated machine learning models over a 6-week internship, focusing on data preprocessing, feature engineering, and performance optimization.

Machine Learning & Data Science Intern | Kodbud Nov 2025 – Dec 2025
Built and tested ML models on real-world datasets, performing data cleaning, feature engineering, and visualization with Matplotlib and Seaborn.

KEY PROJECTS

Smart Vision – Condition-Aware Object Detection | Python, EfficientNet-B0, Real-ESRGAN, YOLO11
- Built a pipeline that classifies image conditions (fog, rain, snow, sand-dust, low-light, normal) with EfficientNet-B0 and applies matching enhancement before detection.
- Added Real-ESRGAN ×4 super-resolution and YOLO11s detection.
- Compared YOLOv8s, YOLO11s, and YOLO26s detectors.

Personalized Interview Preparation System | Multi-Agent AI
- Designed a multi-agent architecture for personalized student career guidance, where a Coordinator Agent routes requests to specialized agents.
- Covered profile analysis, skill-gap detection, roadmap generation, question generation, mock interviews, and progress tracking through separate agents.

Career Mentor | Python, LangChain, LangGraph
- Built an AI chatbot that provides personalized career guidance and advice using an agentic workflow built with LangGraph and LangChain.

Ford Product Part Pricing Automation | Python, GCP, BigQuery, Apify
- Built an automation pipeline on Google Cloud that retrieves automotive part prices from AutoZone and NAPA via web scraping, outputting results to Excel and JSON.

Altrosyn Agentic AI Skills Project | Python, Agentic AI
- Analyzed APIs and existing code, and built feature and test-scenario documentation to systematically evaluate AI agent capabilities.

Image Classification | Python, TensorFlow/Keras, CNN, OpenCV
- Built a CNN-based image classifier using data augmentation and transfer learning to improve accuracy.

ChatBot using NLP | Python, NLTK, TF-IDF, Flask
- Built a conversational chatbot using intent recognition and TF-IDF response matching, deployed via Flask.

Sentiment Analysis on Tweets | Python, Scikit-learn, NLTK
- Classified tweet sentiment using Logistic Regression and Naive Bayes, visualized with word clouds and charts.

SKILLS

Programming:	Python, C, Java, SQL
Machine Learning:	CNN, NLP, Logistic Regression, Random Forest, SVM, Feature Engineering
Generative AI:	Prompt Engineering, RAG, LangGraph (basic)
Cloud & Automation:	Google Cloud Platform, BigQuery, Cloud Storage, Airflow, CI/CD, Apify, Agentic AI
Web & Design:	HTML, CSS, JavaScript, Flask, UI/UX Design (Figma), GitHub, Jupyter Notebook
Other:	TensorFlow/Keras, Scikit-learn, OpenCV, NLTK, Jira

CERTIFICATIONS

- AWS Cloud Support Associate
- Oracle Certified AI Foundation Associate
- IBM SkillsBuild (AI)
- NPTEL – Python for Data Science | Top 5% Topper
- NPTEL – Machine Learning in Tamil

ACHIEVEMENTS

- Solved 1000 programming problems in Java
- HackIndia 2026 – Top 10, conducted by ideaboxAI
- MSME Hackathon – Shortlisted
- Smart India Hackathon (SIH) – Participant
- Agent AI Day – Google Cloud Participant

LANGUAGES

Fluent: English, Tamil
